

CITY OF LODI

COUNCIL COMMUNICATION

AGENDA TITLE: Purchase of Network-Integrated Printers

DATE: December 6, 2000

PREPARED BY: JERRY J. ADAMS, CHIEF OF POLICE

RECOMMENDED ACTION: That the City Council authorize the purchase of four network Integrated printers from the Xerox Corporation to replace the 10 year old copy machines currently used by the Police Department. Pricing for the Xerox equipment will be under Los Angeles County's Purchase Agreement with Xerox.

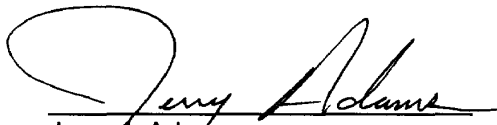

BACKGROUND INFORMATION: The two high volume Xerox copy machines, presently utilized by the Police Department, were purchased in 1990. They have been reliable machines, but have now made over 4,279,295 copies; their reliability is decreasing and their maintenance costs are increasing. Another lower volume Xerox machine in the department has made over 287,592 copies. Technology in the printer/copier field has changed dramatically over the last decade. The proposed network-integrated printer/copiers will allow for the printing of MDC transmitted reports, with the capability to scan and attach hard copies to electronically generated reports for archiving and retrieval. Documents generated in-house can be printed or faxed on the networked systems. **The following prices have been quoted from Xerox using LA County's purchase agreement, which will save us approximately \$48,000 from list price and tax:** Xerox model DC470SL, list price \$50,000 – LA Co. agreement price \$28,660; Xerox model DC460SL, list price \$40,000 – LA Co. price \$24,705; Xerox model DC432S with fax, list price \$18,000 – LA Co. price \$12,470; Xerox Docucolor 4CP, list price \$11,325 – LA Co. price \$5,695.00. The total amount of this purchase including taxes, training and installation is \$79,019.

FUNDING: A grant modification request, in the amount of \$80,000 was submitted to the U.S. Department of Justice, Office of Community Oriented Policing Services. It was approved, under Lodi Police Department's COPS More Grant 99-CM-WX-2080, that the grant be modified to include the network-integrated printer/copier system.
